

Your ideas can power up this building.

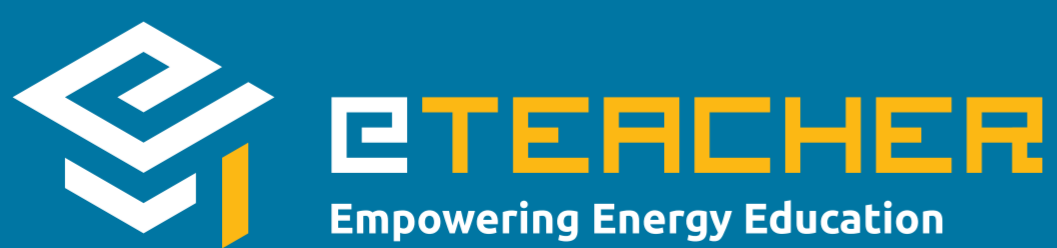

eTEACHER, energy efficiency and you: get involved!

eTEACHER is a research project looking at improving the energy efficiency and comfort in buildings by developing a new ICT tool.

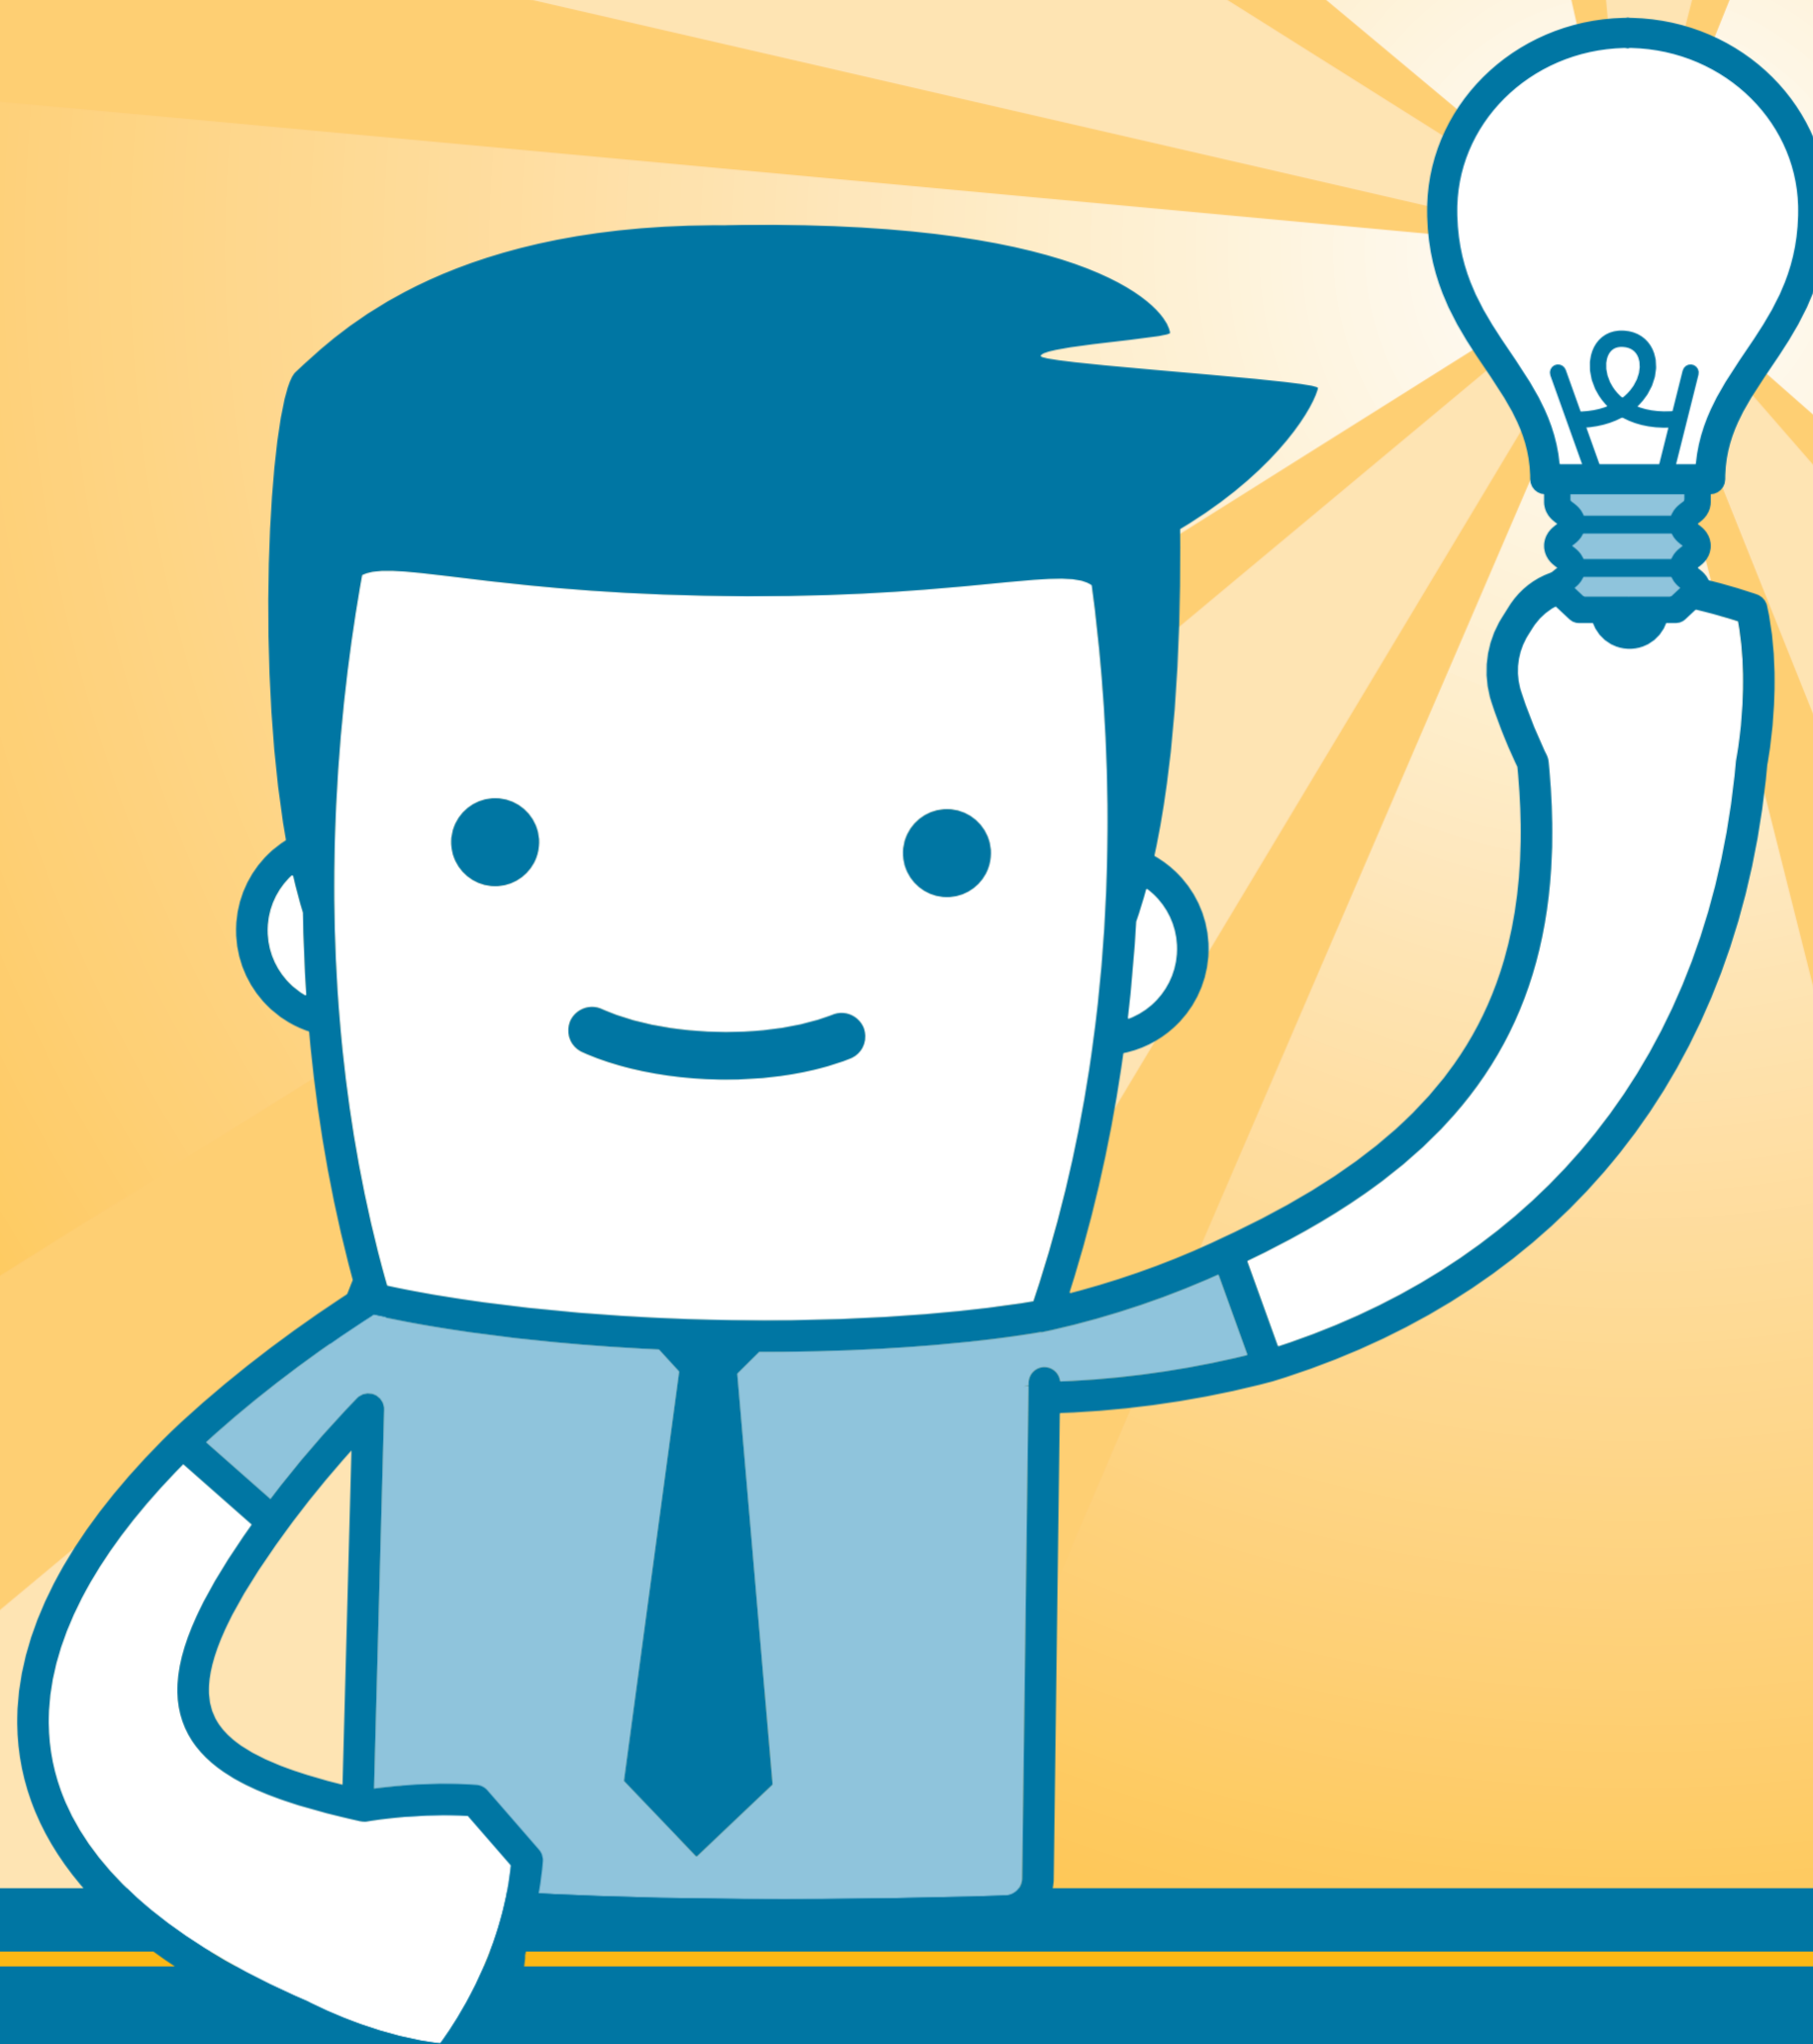

We'd love to hear your ideas and feedback: you can help contribute in its design, be part of an energy efficient and comfortable building and get first use of the final ICT tool.

Join eTEACHER, we are waiting for you!

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 768738.

Your ideas can power up this building.

eTEACHER, the environment and you: get involved!

eTEACHER is a research project looking at improving the energy efficiency and comfort in buildings by developing a new ICT tool.

We'd love to hear you ideas and feedback: by saving energy you can help save your planet and have the chance to get first use of the final ICT tool.

Join eTEACHER, we are waiting for you!
